DECLARATION OF GAYLE VERNER

I, Gayle Verner, declare that I am a citizen of the United States of America.

1. My field of experience is that of a journalist and educator. For over 18 years, I have been a nationally published journalist who has written extensively in many fields including science, medicine, and energy conversion. I have earned the degree of Master in Education from the Harvard Graduate School of Education. I have published (primarily for People Magazine, USA Today, and American Health Magazine) many articles for national and regional journals, newspapers, and newsletters. I make the following statements independently and not as a representative of any publication.

2. I have read the record of the above-entitled application including the recent Communication from the Office. The Examiner's contention that applicant/appellant did not mail Forms 1440 and submit references before FINAL is not true. I have examined Applicant, Dr. Mitchell Swartz's (personal file copy of his) documents which was dated, submitted, and sent to the Office

8

in November, 2002. I can honestly testify that Forms 1440 were indeed included in this November, 2002 mailing to the Office.

3. I have examined the postal card from the USPTO, whose stamped date also confirms that those materials reached the Office in November, 2002.

4. It is my observation that the U.S. Patent Office is behaving mischievously regarding Evidence sent to them by Dr. Swartz.

I declare that all statements herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
